**ZAGRO**  
Insecticide

# ZaZacron

ZaZacron is a wet able powder to effectively kill flies and cockroaches for public hygiene use.

## Indications:

ZaZacron is a wet able insecticide, effective for fly and cockroach control, both indoor and outdoor. It is commonly employed as a spray or paint. ZaZacron works by the inhibition of enzymes, therefore interrupting the transmission of nerve impulses in flies and cockroaches, resulting in immediate death. It gives rapid knockdown, and has good residual activity.

## Composition:

Each kg contains.  
Azamethiphos 10% WP

## Direction For Use:

Recommendations for Controlling Flies and Cockroaches

- ◆ For spray, dissolve 500g of ZaZacron into 4 litres of water and apply to approximately 100 Square meter area.
- ◆ For paint, mix 500g of ZaZacron with 500 cm<sup>3</sup> water and apply to approximately 10m<sup>2</sup>.
- ◆ Ensure a homogeneous solution before application.

## Packing:

500 gm sache  
Original Packed

## CERTIFICATION:

# زاذاکرون

کھیوں اور کا کروچ سے نجات
